Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Allowable Subject Matter

1. Claims 4 and 6 allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or would not have rendered obvious:

A method of embedding ancillary data in an ancillary data space of a serial digital interface video stream, wherein each line of the video stream is composed of a horizontal ancillary data space followed by an active interval, such as claimed in claim 4, the method comprising: during the horizontal ancillary space of line n of the video stream, reading all data from a video FIFO, whereby at the start of the active interval of line $n+1$ of the video stream the video FIFO contains no data; during the active interval of line n , preparing an ancillary data packet and loading the data packet into the video FIFO; during the horizontal ancillary data space of line $n+1$ of the video stream, reading all data from the video FIFO and inserting the ancillary data packet into the horizontal ancillary data space of line $n+1$, whereby at the start of the active interval of line $n+2$ of the video stream the video FIFO contains no data. The closest prior art, David K. Fibush "Integrated Digital Audio into the Serial Digital Video Signal", SMPTE Journal, September 1994, pages 574-579, and Fielder (US 6,188,987) disclose embedded ancillary data in an ancillary data space of a serial digital interface video stream, either singularly or in combination, fail to anticipate or render obvious the present invention.

A method of embedding ancillary data in the horizontal ancillary data space of a serial digital video stream, wherein each line of the video stream is composed of a horizontal ancillary data space followed by an active interval, such as claimed in claim 6, the method comprising: detecting whether ancillary data is embedded in the horizontal ancillary data space of the input serial digital video stream; if no ancillary data is embedded in the input serial digital video stream, embedding ancillary data in the serial digital video stream; if ancillary data is embedded in the input serial digital video stream, operating either in a cascade mode or in an originate mode; and wherein operating in the originate mode includes the step of embedding ancillary data in the horizontal ancillary data space of the serial digital video stream by overwriting data in the input serial digital video stream, and operating in the cascade mode includes the step of embedding ancillary data in the serial digital video stream without overwriting data in the input serial digital video stream. The closest prior art, David K. Fibush "Integrated Digital Audio into the Serial Digital Video Signal", SMPTE Journal, September 1994, pages 574-579, and Fielder (US 6,188,987) disclose embedded ancillary data in an ancillary data space of a serial digital interface video stream, either singularly or in combination, fail to anticipate or render obvious the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
